MESSAGE FROM MANAGEMENT

After a first semester of important advances in the operation and performance of the organization, we have experienced, in the third quarter, a very special moment in our history.

For Burger King, we have managed to expressively grow sustained by the overperformance of our Free Standings – mainly driven by our most recent investments, which have encouraged us to continue exploring even further this store format – and the strong evolution in SSS, ~4X CPI, leveraged by traffic, due to a good balance in the value equation, our remodeling projects and efficient marketing investments. This commercial performance, which brought us important market share gains, contributed to a relevant adjusted EBITDA growth in comparison to the same period in the previous year.

In Popeyes, we continue observing consistent and accelerated SSS growth, approximately 3X CPI, indicating that the brand has gained awareness and is well positioned among the most relevant QSR brands in Brazil, both in average sales and brand awareness. Also, we have important challenges ahead, which mainly involve operational consistency, given the artisanal process of our restaurants, and efficiency. For the moment, we are focused on these operational initiatives so that, once executed, we can significantly grow. We really believe in this brand's potential to develop the chicken category in Brazil, and we will continue to pursue this path relentlessly.

To strengthen our financial structure, we concluded during this quarter a capital increase of R\$ 450 million. This will be essential so the Company can have the appropriate capital structure to seek its aggressive growth plans, both organic and inorganically. Also, this investment reinforces the trust of our investors in the potential and opportunities of this industry in Brazil.

Further on, in October, as widely communicated, we concluded the rights to operate and develop with exclusivity the brands Starbucks and Subway in Brazil. Although these brands are facing distinct moments, we really believe in the growth and value creation potential in both cases. We have several synergies in the ecosystem, and we also have a lot to learn with our new business partners. With this in mind, we strategically reorganized our organization chart in Business Units, aiming at better execution in initiatives that demand different resources and approaches. This will enable the flexibility each unit needs as well as the support from the overlapping areas, promoting more efficiency in the organization. We are confident in this consolidation movement, amidst an extremely fragmented market, which positions us as one of the few restaurants operating platforms with this scale in the world.

Finally, we have a new team, fully nominated, that connects extensive organizational and industry expertise, with talents that, together, will certainly build the future of this Company.

Management Team - ZAMP S.A.

OPERATIONAL PERFORMANCE

Restaurant Chains

During 3Q24, the Company opened 6 Burger King® restaurants, of which 5 are franchise restaurants and 1 is company-owned. Also, there were 2 franchise operations closed. For Popeyes®, there were neither openings nor closings in the quarter. Portfolio management has been an important strategic priority for the organization due to recent changes to the business dynamics and we will continue to purchase this balance.

BURGER KING® system

For Burger King® brand, during 3Q24, the Company registered **6 restaurant openings, from which 5 franchise operations (3 Free Standing, 1 Mall and 1 In Line) and 1 company-owned restaurant in Free Standing format**. Also, the Company closed 2 franchise operations in Mall format. This way, **Burger King®** system ended the period with **941 restaurants**.

*Stores in Ghost Kitchen format are accounted within "Mall" category.

Remodeling of BURGER KING® restaurants

As we have been sharing with the market, our remodeling projects are an important part of our strategy, aiming to improve our customers' experience as well as our business efficiency, through sales increase and operational expenses optimization. The investment has shown positive and above expectation results and should remain an important driver of capital allocation in the medium and long term.

POPEYES® system

There were no restaurant openings or closures for Popeyes® system in 3Q24. This way, the brand has ended the quarter with a total of 91 restaurants, of which 85 are company-owned and 6 are franchise operations, the same as it ended 2Q24.

BURGER KING® dessert centers

In addition to its 941 restaurants, the Burger King® system ended the quarter with **378 dessert centers** – no changes versus the previous quarter. With the current demand composition, where digital channels are taking on an increasingly significant share of the business, we are closely monitoring the needs of this restaurant model in order to find the best balance between coverage and efficiency.

Total restaurant chain

Therefore, after opening 6 restaurants and closing 2 others, between company-owned and franchise restaurants, ZAMP ended 3Q24 with a total of **1.032 restaurants**, of which **767 are company-owned** Burger King® and Popeyes® restaurants and **265** are Burger King® and Popeyes® **franchises** – a net increase of 29 restaurants in 12 months, with 53 openings and 24 closings.

FINANCIAL PERFORMANCE

Net operating revenue

In 3Q24, the Company's net operational revenue totaled approximately **R\$1.1 billion**, a new quarterly record, up by 18% compared to 3Q23. It is important to highlight that the commercial performance evolution was consistent across brands, with **Burger King®** growing 18% YoY (SSS +16.2%) and **Popeyes®** 15% YoY (SSS +12.3%).

Burger King® sales revenue

Burger King® sales revenue for 3Q24 reached a level of **R\$ 1.037 billion**. This result represents an evolution of **18% versus the previous year**, as a consequence of strong growth in SSS (+16.2%) and exceptional performance of the operations opened over the last 12 months. This combination enabled a gain of **1.5 p.p in market share**, according to Crest.

Burguer King's growth was mainly driven by a significant increase in traffic, which represented almost 75% of Same Stores Sales growth, combined with a higher average

ticket. Our traffic increase was boosted by an outstanding performance of our Free Standing (FS) restaurants, mainly on the Drive-Thru channel, highlighting the progress in maturity of a channel to which we have dedicated significant effort due to the opportunity it represents in the Quick Service Restaurants (QSR) market in Brazil. We also saw a good balance in our revenue management strategy, with campaigns well-received by our consumers, and strong efficiency in our media presence in different formats and in key markets.

This quarter, the Company launched a series of campaigns aimed at connecting with our customers on key dates, such as Father's Day and municipal elections, as well as value for money campaigns that enabled products with more accessible prices in a macroeconomic scenario still in recovery. These campaigns were important tools for brand differentiation and for driving traffic to our stores.

System digitalization, another important driver of customer experience and average ticket evolution, achieved an important milestone, with net revenue growing **38.3% on an annual comparison** and representing approximately **53%**, an improvement of **8 p.p** versus the previous year – once again, the expansion in totem usage **(+6 p.p YoY)** as a highlight.

On our Children's platform, we launched the **Justice League** and **Addams Family** campaigns, which were important not only for generating traffic and ticket sales but also for customer loyalty and brand consolidation in this segment.

Finally, Burger King launched iconic innovations during the quarter, such as the Chicken Fries and Prestígio campaign. Both were important in our efforts to serve our customers more effectively and, as a result, leverage our performance.

Popeyes® sales revenue

For Popeyes®, net sales revenue in 3Q24 was **R\$ 68.6 million**, up by **15% in annual comparison**, and **SSS of 12.3%**.

In the quarter, once more, we saw consistent sales performance with a significant increase in traffic, which contributed to approximately two-thirds of the SSS and enabled **4.2 p.p of market share gain** versus 3Q23, according to Crest. For Popeyes, we have observed

in brand consolidation.

continuous progress in the experience indicators, brand consideration and, consequently, sales. This gives us even more confidence that we are on the right path for the brand to become an important growth driver for ZAMP.

During this period, Popeyes launched another exclusive product on the Gourmet line, the Louisiana Brie, reinforcing the commitment to offer the best products in the category. These innovations, as well as promotional campaigns focused on groups and families, are key lever

Sales Digitalization

Digital sales, represented by delivery, totem and app (mobile) for both ZAMP brands, reached **R\$586.4 million in Q324**, an **evolution of 37.8%** in comparison to the same period from the previous year.

Sales through digital channels were responsible for **52.3% of the Company's sales revenue**, approximately **7 p.p increase** in the annual comparison and **2 p.p** versus the previous quarter (2Q24).

The standout for the period in digital sales was the increase in number of transactions via self-service totems. We observed an increase in the representativeness of sales through this channel of approximately **6 p.p in annual comparison** and **2 p.p versus the previous quarter**.

We believe this is an important driver of average ticket increase, NPS improvement with more assertive service and reduced waiting time, and operational efficiencies generation to the Company. In the quarter, ZAMP achieved the milestone of **31.7% of net operating revenue** transacted via self-service totem.

Delivery reached the level of R\$179.2 million in the quarter, an improvement of 29.0% in the annual comparison, representing **16.0% of total revenue** during the period (+131 bps YoY). This is an important channel of contact with our customers; therefore, we remain focused on operational and financial progress, seeking to drive sales with increasingly better margins and smooth experience for our customers.

This quarter, the Company reached 52.4% of identified sales and **Clube BK**, Burger King®'s loyalty program and main *driver* of our CRM strategy, ended the period with approximately **19 million users**, an evolution of **27% in comparison to the same period in 2023** and **8% versus 2Q24**. The program has directly contributed to the average sales per user growth, as it encourages even greater frequency, especially for heavy users, and has substantially lower cost of acquisition (CAC).

Cost of Goods Sold

COGS (cost of goods sold) reached **34.7 %** in 3Q24, slightly above the previous quarter of **29 bps**, and a decline of **27 bps** in the YoY comparison. This year, we have reached a good balance between the commercial strategy and cost management for our supply chain, due to a favorable commodities cycle, tax efficiency, optimization of the promotional strategy driven by digitalization, and commercial negotiations with our strategic business partners.

Selling expenses

For 3Q24, selling expenses, excluding depreciation, amortization and the effect of pre-operating expenses, represented **48.5% of revenue**, an increase of 32 bps in annual comparison.

Main drivers for the increase in variable expenses were: (i) 136 bps increase in personnel expenses to support high sales volume, more availability in restaurants and a higher average per capita cost; (ii) 14 bps increase in other expenses due to delivery expansion. Despite these increases, we had a significant improvement in occupation and utilities, as a result of efforts made in real estate management, Free Energy Market and Distributed Generation initiatives, leading to a margin reduction of 59 bps.

Excluding the effect of IFRS 16, however, selling expenses without depreciation, amortization and pre-operational expenses reached **53.6% of revenue**, a reduction of **66 bps** in YoY comparison, with occupation and utilities as important drivers of improvement (159 bps), both due to constant renegotiation made and higher operational leverage.

Total General and Administrative Expenses

General and administrative expenses, excluding depreciation and amortization, reached **6.1% of the quarter's**

net revenue, an increase of **152 bps** in the **annual comparison**. This result is mainly a consequence of **one-off expenses with M&A projects**, which had an impact of 125 bps. Additionally, the Company invested in an organizational restructuring to support the creation of business units, aiming for higher operational flexibility with fast and independent execution.

Adjusted EBITDA

The Company's adjusted EBITDA reached the amount of **R\$135.5 million** in 3Q24 – the **all-time-high for a third quarter's adjusted EBITDA** ever reached by the Company, 6.3% above in the annual comparison. **Adjusted EBITDA margin** for the period was **12.1%**, **137 bps below** the previous quarter, mainly driven by COGS (29 bps), variable expenses (32 bps) and G&A ex-M&A (76 bps).

ADJUSTED EBITDA AND ADJUSTED EBITDA MARGIN (R\$ MM and %)

In terms of **Adjusted EBITDA ex-IFRS 16**, the Company reached **R\$76.8 million** in 3Q24, an expansion of **approximately 12%** and a margin reduction of **38 bps** in comparison with the same period of the previous year.

Net Income/Loss

In 3Q24, the Company registered a net loss of **R\$32.5 million**, a **reduction of 16%** of the loss compared to 3Q23.

Total Debt

The Company ended the third quarter of 2024 with a net debt of **R\$546.0 million**, and **leverage ratio of 1.4x**, excluding the impacts of IFRS 16.

During the period, the Company made a capital increase of approximately R\$450 million – the maximum amount approved in the Extraordinary General Meeting – through the issuance of new shares. This capital increase aims to support the Company in pursuing its growth strategy, both organically via store openings or remodeling of existing ones and inorganically, for example, with the acquisition of Starbucks stores in Brazil and the exclusive Master Franchise agreement for Subway operation in the country.

Investments (CAPEX)

In 3Q24, total investments made by the Company reached **R\$97.1 million**, an increase of approximately 10% compared to the same period in the previous year. The CAPEX increase is mainly a consequence of a higher number of Pavillion formats in our store opening pipeline for the next quarters and higher investments in restaurant remodeling as previously mentioned.

CAPEX 3Q24

Operating Cash Flow

Operating cash flow reached R\$84.5 million, a reduction of 9.8% in the YoY comparison, due to a temporary deterioration in the working capital line.

Working capital is composed by: accounts receivable, inventories, taxes recoverable, prepaid expenses, accounts payable and rent payable, affiliated suppliers, salaries and social security liabilities and corporate obligation.

M&As

In October, the Company announced two important acquisitions – **Starbucks and Subway** – giving one more step towards its strategy of consolidation as a platform of iconic brands, with best-in-class products and scalable potential. These movements materially expand, across various subsegments in the QSR industry, our growth avenues and put us in a favorable position to explore synergies soon. As we all know, this is a fragmented market in Brazil and consolidation gives us strength in several fronts, from the way we interact with our clients to the process we have established, partners in our supply chain, franchisees that support us in building our brands and, mainly, our team that has the expertise and skills to expand our Company in Brazil. With these acquisitions, ZAMP will manage four brands that, combined, have a portfolio of **over 2.7k restaurants** and correspond to an **estimated system revenue of R\$6.4 billion in 2023**. We are excited about adding brands with different challenges to our portfolio, but also with the incredible opportunities that they represent to the story we are building here at ZAMP.

DEFINITIONS:

- **App:** Functionality that considers orders previously placed on the app for store pick-up.
- **CRM:** Customer Relationship Management – management tool for customer information flow.
- **Delivery:** When an order is delivered to a location determined by the customer.

RELATIONSHIP WITH INDEPENDENT AUDITORS

In accordance with CVM Resolution No. 162/2022, the Company informs that until September 30, 2024, the independent auditor PricewaterhouseCoopers Auditores Independentes Ltda. (PwC), did not provide additional services beyond those contracted for external audit services.

The Company has a formal procedure to consult with independent auditors to ensure that the provision of other services does not affect their independence and objectivity necessary for the performance of independent audit services. The Company's policy for hiring independent auditors ensures that there is no conflict of interest, loss of independence, or objectivity.

In contracting these services, the Company's policies are based on principles that preserve the auditor's independence. These principles, according to internationally accepted standards, are: (a) the auditor should not audit their own work; (b) the auditor should not take on management roles at their client; and (c) the auditor should not legally represent their clients' interests.

1. Operations

ZAMP S.A. ("ZAMP" or the "Company") is a publicly-held corporation domiciled in Brazil, with a registered office at Alameda Tocantins, 350 - Alphaville - Barueri - SP. It is listed on B3 S.A. - Brasil, Bolsa, Balcão ("B3") under ticker "**ZAMP3**" and is engaged in: (i) the development and the operation of "Burger King" and "Popeyes" restaurants in Brazil; (ii) the provision of advisory and support services to Burger King restaurants in Brazil; (iii) sale, import and export of products related to the aforementioned activities; and (iv) the holding of equity interests in other companies that develop the activities above in Brazil, as a partner or shareholder.

Since April 6, 2023, the Company operates a Level I American Depositary Receipts (ADR) Program under the US Securities and Exchange Commission (SEC) regulations backed by registered, book-entry common shares issued by the Company, with no par value. Each ADR corresponds to four common shares issued by the Company and is traded in the over-the-counter market (OTC) under ticker ZMMPY.

The January 3, 2024 Extraordinary General Meeting (EGM), passed a resolution to withdraw the Company's shares from the Novo Mercado, without the need for a public offering for the acquisition of shares (OPA), and migration to the basic listing segment of B3.

As disclosed in a Material Fact notice dated February 21, 2024, a controlling interest in the Company was acquired by MC Brazil F&B Participações S.A. ("MC Brazil"), a portfolio investment company indirectly owned, controlled and managed by Mubadala Capital LLC.

On June 5, 2024 and August 1, 2024, the Company merged the investees "ZAMP II S.A." and "ZAMP III S.A.", having a corporate purpose similar to that of the parent company except that it may also develop brands other than those already owned by the Company. These companies were created with an equity value of R\$17 and they are wholly owned by ZAMP.

Reissuance of Interim Financial Information

The individual and consolidated interim financial information of the Company, originally issued on November 7, 2024, is being reissued on November 22, 2024, due to the following correction: an adjustment exclusively to the General and Administrative Expenses item in the Consolidated Income Statement, as well as the subtotals of this statement (Result Before Financial Results and Taxes, Result Before Income Taxes, Net Income from Continuing Operations, and Consolidated Profit/Loss for the Period) for the three-month period ended on September 30, 2024. The amount of R\$ 79,838 was recorded without the negative sign ("-"), resulting in a correction of R\$ 159,676 negative.

ZAMP clarifies that this change did not affect the liquidity or consolidated financial position, nor did it impact other columns presented in the consolidated income statement or in the respective explanatory note. The other consolidated tables, as well as the individual interim financial information, including the comparative figures for the previous period, were also unaffected compared to the previously disclosed version.

ZAMP S.A.

Notes to the interim financial information

As at and for the three- and six- month periods ended September 30, 2024

(In thousands of Reais unless otherwise stated)

a) The Burger King Operation

The right to operate the Burger King restaurants was obtained through a "Master Franchise" agreement entered into with Burger King Corporation ("BKC") on July 9, 2011. The restaurant operation rights have a term of 20 years, renewable for a further 20 years upon mutual agreement of the parties (Note 18).

The Company obtained from Restaurant Brands International (RBI), owner of the Burger King brand, a 20-year franchise counted from each store's opening date. Upon opening a store, a Franchise Fee ranging from US\$5 thousand to US\$45 thousand is payable in a single installment; depending on the store model, Royalties of 5% are also payable on the net monthly revenue of the stores, and; a contribution to a marketing fund at 5% of net sales.

As at September 30, 2024 and December 31, 2023, the Company had 682 and 691 company-owned stores, respectively, under the Burger King brand.

b) The Popeyes Operation

The right to operate restaurants under the Popeyes brand was obtained through a "Master Franchise" agreement entered into with Popeyes Louisiana Kitchen (PLK) on March 20, 2018. Upon signing these agreements, ZAMP acquired the exclusive right to develop and operate restaurants in Brazil through its own operation or franchisees under the POPEYES® brand for a 20-year period, which may be renewed for an equal term, upon mutual agreement by the parties (Note 18).

The Company acquired from RBI, owner of the Popeyes brand, a franchise for a 20-year term counting from each store's opening date. Upon opening a store, US\$40 thousand is payable in a single installment as a Franchise Fee. The royalties and the contribution to the marketing fund are calculated on a similar basis to the BURGER KING® brand in Brazil.

As at September 30, 2024 and December 31, 2023, the Company had 85 and 87 company-owned stores, respectively, under the Popeyes brand.

2. Material accounting policies

Basis of preparation

The individual parent company and consolidated interim financial information was prepared in a manner consistent with the accounting policies described in Note 2 to the annual individual and consolidated financial statements for the year ended December 31, 2023.

Pursuant to Circular Letter 03/2011 issued by the Brazilian Securities Commission (CVM), the Company's individual parent company and consolidated interim financial information does not include all the notes and disclosures required for a full set of annual individual and consolidated financial statements and, therefore, the respective financial information should be read in conjunction with the annual individual and consolidated financial statements.

The Company's individual parent company and consolidated financial information, presented in the Quarterly Information Form (ITR) for the nine-month period ended September 30, 2024, was prepared in accordance with CPC 21 (R1) - *Demonstrações Intermediárias* and International Accounting Standard (IAS) 34 - Interim Financial Reporting, as issued by the International Accounting Standards Board (IASB) and is presented consistently with CVM rules and regulations applicable to the preparation of Quarterly Information (ITR). These disclosures are limited to information of significance to the financial statements, which is consistent with the information utilized by management in the performance of its duties.

ZAMP S.A.

Notes to the interim financial information

As at and for the three- and six- month periods ended September 30, 2024

(In thousands of Reais unless otherwise stated)

The preparation of interim financial information requires the use of certain critical accounting estimates and also the exercise of judgment by the Company's management. Accounting estimates and assumptions are periodically evaluated and are based on historical experience and other factors, including expected future events, considered to be reasonable in the circumstances. Actual results may differ from those estimates.

The interim consolidated financial information comprises the accounting information of ZAMP and that of the investees ZAMP II S.A. and ZAMP III S.A. (Note 1) and of the exclusive investment fund- XPA ZAMP (Note 4). The financial information period of the investees is the same as the Company's, using consistent accounting policies. All intragroup balances, income and expenses as well as unrealized gains and losses arising from intragroup transactions are fully eliminated.

The Company's operating results are subject to seasonality typical of the retail industry. Sales are affected by school holidays (January, July and December) and, principally for stores located in shopping malls, are higher in the weeks prior to Mother's day (May), Valentine's day (June), Father's day (August), Children's day and Halloween (October), Black Friday (November) and Christmas (December). These seasonal effects affect the Company's results.

CPC 22/NBC TG 22 (R2)/IFRS 8 - Operating Segments requires operating segments to be identified based on internal reports which are regularly reviewed by the chief operating decision makers for the purpose of allocating resources to segments and assessing their performance. The Company develops its activities and bases its business decisions within a single operating segment for the sale of food and beverages in restaurants operated by the Company.

The Quarterly Information (ITRs) as of September 30, 2024, was originally completed and approved by the Company's management and authorized for issuance in accordance with the resolution of the Board of Directors on November 7, 2024. Following the adjustment mentioned in Note 1, the reissuance of the ITRs was authorized by the Board of Directors on November 22, 2024.

(i) XP ZAMP Fundo de Investimento Multimercado Crédito Privado - Exclusive investment fund, 100% owned by the Company, was formed on 12/29/2017. The fund portfolio, by type of investment, is included in the consolidated balances. In September 2024, the Company discontinued the fund, closing all activities related to it.

(ii) Increase mainly due to financial resources obtained through the issuance of CRAs in the period (Note 11), partially offset by the early, timely and optional settlement relating to the 8th issue of debentures.

(In thousands of Reais unless otherwise stated)

- (i) The adjustments of financial indexes for Lease Liabilities are recorded according to each agreement, affecting Interest on Lease liabilities and Right-of-use assets. These adjustments do not affect the profit or loss for the period, but only the amounts in the statement of financial position.
- (ii) In compliance with CVM Circular Letter 02/2019, the balances in the statement of financial position accounts are gross of taxes (PIS and COFINS) while the balances in the statement of profit or loss accounts are net of taxes (PIS and COFINS).
- (iii) The effects of the adoption of CPC 06 (R2) / NBC TG 06 (R3) / IFRS 16 positively reduced the occupancy expenses line by R\$176,583 as at September 30, 2024 (R\$178,294 as at September 30, 2023), net of PIS and COFINS, as the operating lease (fixed rent) is no longer recognized under this line item (Note 23).

The potentially recoverable PIS and COFINS from future lease payments, as at September 30, 2024 and year ended December 31, 2023, were:

Covenants

The Company has covenants in the agreements for loans, financing and debentures, which limit its ability to take certain actions, and may trigger the accelerated maturity or the refinancing of debts if the Company is in breach of the covenants. Covenants are measured annually by the financial institutions; however, the Company monitors them on a monthly basis. There are no cases of non-compliance.

12. Trade payables, agreement with suppliers and rental payables

	Parent company and Consolidated

Rental payables (ii)	24,510	33,403
Others	422	951
Total trade payables, agreement with suppliers and rental payables	290,896	357,539

(i) The Company has contracts with financial institutions allowing suppliers, at their option, to obtain early redemption of receivables due from the Company. Accordingly, the supplier receives an advance from the financial institution for an amount equivalent to the receivable less a discount. The Company settles its payable directly with the financial institutions based on the original terms and conditions including the due date and the agreed amount. These operations, with selected suppliers, in the period ended September 30, 2024, incurred an average intrinsic embedded financial discount rate of 2.8% per month over a term of 32 days.

(ii) Refers exclusively to the total rental provision as at September 30, 2024.

17. Provision for legal claims

The Company is exposed to certain risks, represented by tax, civil and labor lawsuits, which are provided for in the financial statements, when the likelihood of loss is probable. When the likelihood of loss is possible and significant to the Company's financial position these are only disclosed in an explanatory note.

The lawsuits are provisioned and/or disclosed by management, under the advice of the Company's legal counsel, considering the nature of the lawsuits and historical experience. The amounts provided for related to the probable loss legal claims under judicial proceedings are shown in the table below. At September 30, 2024, further unprovided tax, civil and labor lawsuits involving a possible likelihood of loss total R\$471,837 (R\$380,795 as at December 31, 2023) in the Parent company and Consolidated, as follows:

	Parent company and Consolidated			
	09/30/2024		12/31/2023	
	Probable	Possible (i)	Probable	Possible (i)
Labor lawsuits	34,979	67,715	42,869	47,217
Civil lawsuits	1,823	21,522	1,155	21,642
Tax lawsuits (ii)	-	382,600	-	311,936
Total provision for legal claims	36,802	471,837	44,024	380,795

- (i) The increase in possible loss in labor lawsuits is mainly due to new lawsuits considered atypical (Public Prosecutor's Office, unions and claims from employees of the Company's head office or third parties). For the possible loss tax lawsuits, the increase is mostly due to interest accruals and fees. The lawsuits are being discussed at the judicial level.
- (ii) In October 2022, the Federal Revenue of Brazil (RFB) issued two tax assessment notices against the Company for the collection of PIS, COFINS, IRPJ and CSLL debts. These total R\$ 314,870 as at September 30, 2024 (R\$ 291,950 as at December 31, 2023), and are based on the following: i) differences in the applicable rate on certain revenues (PIS and COFINS); (ii) alleged incorrect offset of credits, though typical taken by others in the segment and being essential and relevant to the business (PIS and COFINS); (iii) alleged errors in fulfilling ancillary obligations, especially arising from disputed credits (PIS and COFINS); and (iv) disputed deductibility of royalties for purposes of calculating, at a level higher than the legal limit (IRPJ and CSLL).

Legal claims with probable losses

The Company is a party to labor lawsuits, mainly for employee terminations in the normal course of business. As at September 30, 2024, the Company had a provision of R\$34,979 (R\$42,869 as at December 31, 2023) in the Parent company and Consolidated, for the contingencies related to lawsuits. These contingencies are evaluated based on the average historical loss rate over the past 18 months comparing them with the total lawsuits outstanding at the end of the period, excluding lawsuits considered as specific and non-routine, for which specific provisions are set up adopting criteria similar to those applied for tax and civil assessments.

18. Related parties

18.1 Franchise Fees, Royalties and Service Fee

RBI is the Company's franchiser and, therefore, a related party. As discussed in Note 1, the Company has entered into a Master Franchise agreement, and it has the obligation to pay a franchise fee and royalties to RBI.

Franchise Fees and Royalties are carried out under exclusive conditions in the agreements with BKC and PLK, since ZAMP is the representative of the brands in Brazil, and there are no comparable conditions in the market.

The Company recorded the following payables and receivables in the nine-month period ended September 30, 2024 and year ended December 31, 2023:

Compensations	-	-	1,450	-
	35,077	2,510	17,447	2,656

(i) The increase is due to the vesting periods of the shared-based compensation plans (Notes 24 and 31).

The Annual General Meeting held in April 2024 approved the Company's global management compensation for 2024, in the amount of up to R\$48,294, covering Statutory Officers including the share-based compensation plan and the compensation of the Board of Directors. These are recorded in general and administrative expenses.

19. Equity

Capital

At the Extraordinary General Meeting (EGM) held in July 2024, the Company's shareholders approved a capital increase of up to R\$450,000 through the issue, for private subscription, of registered, book-entry common shares with no par value. In August and September 2024, the contributions for capital increase were made in the maximum amount.

Therefore, the Company's capital increased from R\$1,461,068, which was represented by 275,355,447 common shares, all of which registered, book-entry and without par value, to R\$1,911,068 comprising 406,934,395 common shares, all of which registered, book-entry and without par value.

Pursuant to the Bylaws and upon resolution of the Company's Board of Directors, capital may be increased, without seeking prior amendments to the Bylaws, up to the limit of 427,281,115 common shares, including shares issued upon exercise of subscription rights included in stock warrants issued by the Company.

Capital reserves

The capital reserves include a share premium on the subscription of shares and the stock option plan, less share issuance expenses. The reserve may be used to increase capital or to absorb an accumulated deficit. As at September 30, 2024, the capital reserve amounts to R\$712,951 (R\$733,323 as at December 31, 2023).

(In thousands of Reais unless otherwise stated)

The expected years of realization of deferred tax assets as at September 30, 2024 are shown below:

Parent company and Consolidated	
Year	09/30/2024
2024	129,190
2025	95,637
2026	90,099
2027 onwards	190,722
Total deferred tax assets	505,648

In accordance with CPC 32 - Income Taxes, the Company recognized deferred taxes on temporary differences based on their expected future realization. The Company did not recognize deferred taxes on income tax and social contribution carryforwards losses.

Uncertainty over Income Tax Treatments

The Company has a tax assessment notice issued by the Brazilian Federal Revenue (RFB) disputing the deductibility of royalties for purposes of calculating IRPJ and CSLL in excess of the legal limit (IRPJ and CSLL), for 2017 in the amount of R\$15,951. The case is awaiting judgment at the administrative level. Management, based on the advice of its legal advisors, believes that the risk of loss is possible and, for this reason, it has not recorded IRPJ and CSLL liabilities related to this lawsuit.

28 Financial risk management objectives and policies

The Company's principal financial liabilities comprise loans and financing, debentures, trade payables and other payables. The main purpose of these financial liabilities is to raise finance for the Company's operations.

Management reviews and establishes policies for managing each of these risks that are presented below:

Market risk

Market risk is the risk that the fair value of future cash flows of a financial investment will fluctuate because of changes in market prices. Market risks comprise three types of risks: interest rate risk, foreign exchange rate risk and price risk including commodities, stocks, or others.

For sensitivity analysis purposes, management adopted as a probable scenario the projected interest rates for 2024. Scenarios II and III were stressed by an additional appreciation of 50% and 25%, respectively, while scenarios IV and V by an additional devaluation of 25% and 50%, respectively, from the rates in the probable scenario.

The sensitivity analyses in the following sections relate to the position as at September 30, 2024.

Interest rate risk

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's long-term debt obligations with floating interest rates.

The Company manages its interest cost using a mix of fixed and variable rate debt.

30. Fair value

Methodology for calculation of fair value of financial instruments

The fair value of financial assets and liabilities represents the amount by which the instrument could be exchanged between willing parties in an arm's length transaction, rather than in a forced sale or liquidation. The fair values of the main financial assets and liabilities approximate their carrying amounts, as shown below:

31. Share-based compensation plan

AS detailed in the Material Fact notice disclosed on January 3, 2024 and the "Events after the reporting period" note in the financial statements for 2023, the Board of Directors approved early vesting periods of the virtual shares granted under the Share Concession Plans covering all grants from the fifth and sixth plans. The decision was based on the high concentration of Mubadala's shareholdings. The early vestings of the existing shareholding are atypical and were caused by facts beyond the control of the Company and its Management.

The earlier vesting periods had an effect of R\$ 46,489 million (including social charges), on the first quarter results of 2024.

On June 12, 2024, the Board of Directors approved the termination of the program, pursuant to item 9.1.2 of the Stock Option Plan created by the Board of Directors on July 4, 2023 (Seventh Plan), without any rights to shares not transferred to the Participants up to that date. The termination of the Program resulted in the prepayment of expenses totaling R\$412, which affected the Company's result for the first quarter of 2024.

In the nine-month period ended September 30, 2024, the Company recognized R\$46,970 (R\$10,362 as at September 30, 2023) relating to expenses arising from the stock option plans, under "General and administrative expenses" (Note 24).

33. Events after the reporting period

33.1 Completion of the Starbucks transaction

Complementing the information disclosed by the Company through its usual channels, on October 9, 2024, a Material Fact notice was issued informing the market as to the completion of the Starbucks transaction.

Following the competitive process for the sale of Starbucks Brazil assets within the judicial recovery proceedings of the SouthRock group, the following events occurred:

- (i) The transfer by the SouthRock group, under judicial recovery, of Starbuck Brasil assets to a company set up specifically for this purpose, Café Pacífico S.A. ("Café Pacífico");
- (ii) the execution of contracts with Starbucks Corporation, as the owner of the "Starbucks" brand, authorizing ZAMP II S.A., the Company and/or its associates to exploit the brand and develop the operations of Starbucks in Brazil; and
- (iii) the acquisition, by ZAMP II S.A., of all the shares issued by Café Pacífico, whereby the Company became, indirectly, the holder of all Starbucks Brazil assets.

The base price agreed for the acquisition of Starbucks Brazil assets was R\$120,000, which was subject to adjustments to reflect, among other things, the number of stores actually acquired, as well as the net debt and inventory level at the closing date. Considering the number of stores actually transferred to Café Pacífico, the purchase price was R\$101,800, which is still subject to adjustment to reflect the inventory level and net debt of Café Pacífico at the closing date, as well as the amounts paid to third parties within the scope of the transaction.

The Company informs that it is not yet possible to determine whether the purchase price will meet the criteria set forth in Article 256 of Law 6,404/76 and, once the price adjustment calculations are completed, it will inform its shareholders and the market regarding any potential need for approval by the general meeting to ratify the transaction.

33.2 Completion of the Subway transaction

Through a Material Fact notice on October 16, 2024, the Company informed the market as to the transaction with Subway International Franchise Holdings, LLC. Under the terms of the Master Franchise and Development Agreement – MFDA, ZAMP III becomes the exclusive master franchisee of the Subway restaurant system in Brazil.

As the new exclusive master franchisee of the Subway restaurant system in Brazil, ZAMP III will (a) manage the network of Subway sub-franchisees in Brazil, as well as manage the supply chain for the entire network; and (b) may open and operate its own Subway restaurants in Brazil.

33.3 Capital increase and transfer of the registered office

At the Extraordinary General Meeting (EGM) held on October 25, 2024, the Company's shareholders deliberated on the following topics, among others:

- (i) approval of a capital increase of R\$450,000, via a private subscription, and issuance of 131,578,948 registered, book-entry common shares without par value, which will confer the same rights attributed to the other common shares, under the terms of the resolution approved at the Company's EGM held on July 26, 2024;

Report on review of quarterly information

To the Board of Directors and Shareholders
ZAMP S.A.

Introduction

We have reviewed the accompanying individual parent company and consolidated interim accounting information of ZAMP S.A. ("Company"), included in the Quarterly Information Form (ITR) for the quarter ended September 30, 2024, comprising the statement of financial position at that date and the statements of profit or loss and comprehensive income for the quarter and nine-month period then ended, and the statements of changes in equity and cash flows for the nine-month period then ended, and explanatory notes.

Management is responsible for the preparation of the parent company and consolidated interim accounting information in accordance with the accounting standard CPC 21, Interim Financial Reporting of the Brazilian Accounting Pronouncements Committee (CPC), and International Accounting Standard (IAS) 34, Interim Financial Reporting issued by the International Accounting Standards Board (IASB), as well as the presentation of this information in accordance with the standards issued by the Brazilian Securities Commission (CVM), applicable to the preparation of the Quarterly Information (ITR). Our responsibility is to express a conclusion on this interim accounting information based on our review.

Scope of review

We conducted our review in accordance with Brazilian and International Standards on Reviews of Interim Financial Information (NBC TR 2410 - Review of Interim Financial Information Performed by the Independent Auditor of the Entity, and ISRE 2410 - Review of Interim Financial Information Performed by the Independent Auditor of the Entity, respectively). A review of interim information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Brazilian and International Standards on Auditing and consequently did not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying individual parent company and consolidated interim accounting information included in the quarterly information referred to above has not been prepared, in all material respects, in accordance with CPC 21 and IAS 34 applicable to the preparation of the Quarterly Information and presented in accordance with the standards issued by the CVM.

ZAMP S.A.

Emphasis of matter

Reissue of Quarterly Information Form (ITR)

We draw attention to Note 1 to the Quarterly Information Form (ITR), which describes the update and reissuance of the ITR of September 30, 2024, due to the circumstances described in the referred explanatory note. We issued our original auditor's review report dated November 7, 2024 on the previously issued ITR. Due to the update described in the referred explanatory note, we provide this new auditor's review report on the reissued ITR. Our conclusion is not qualified in respect of this matter.

Other matters

Statements of value added

The quarterly information referred to above includes the parent company and consolidated statements of value added for the nine-month period ended September 30, 2024. These statements are the responsibility of the Company's management and are presented as supplementary information under IAS 34. These statements have been subjected to review procedures performed together with the review of the interim accounting information for the purpose of concluding whether they are reconciled with the interim accounting information and accounting records, as applicable, and if their form and content are in accordance with the criteria defined in the accounting standard CPC 09 - "Statement of Value Added". Based on our review, nothing has come to our attention that causes us to believe that these statements of value added have not been properly prepared, in all material respects, in accordance with the criteria established in this accounting standard, and consistent with the parent company and consolidated interim accounting information taken as a whole.
