Corporate Taxpayer ID (CNPJ/MF): 13.574.594/0001-96  
Publicly Held Company

### **MATERIAL FACT**

#### **Gradual Resumption of Activities**

**BK Brasil Operação e Assessoria a Restaurantes S.A.** (“**Company**”), pursuant to the provisions of the Brazilian Securities and Exchange Commission’s Instruction No. 358/2002 and in addition to the measures informed through the Notice to the Market of March 20, 2020, announces to its shareholders and to the market in general that, in this date, approximately 75% of our Restaurants, under Burger King and Popeyes Louisiana Kitchen brands, are in operation.

All the decisions for resumption are analyzed individually by a multidisciplinary Committee, installed in march, and carefully follow all Municipal and Federal recommendations regarding the operating conditions of our operations, in view of the social distance that guarantees the safety of our customers and employees considering our already strict hygiene measures. Among the actions considered for openings, we intensified the hygiene procedures in our restaurants, expanded the use of PPEs, distribute masks to all our employees, install protective acrylics in the restaurants and sent thermometers to measure the temperature of employees and customers in stores outside the shopping malls. We also emphasize that a large part of the reopened stores are located in malls with restrictions on opening hours and flow of consumers.

Additionally, despite of the closing of salons held on March 23, 2020, we have since that continued to consistently accelerate sales of our Delivery and Drive-Thru channels.

The process of resumption of our activities continues to be evaluated daily by the Committee and, as a result, the number of openings may fluctuate depending on the development of the pandemic.
